8.0 SCHEME OF ASSESSMENT

The syllabus scheme of assessment is grounded on the principle of inclusivity. Arrangements, accommodations and modifications must be visible in both continuous and summative assessment to enable candidates with special needs to also access assessments.

8.1 ASSESSMENT OBJECTIVES

By the end of the Form 1 – 4 Sociology Course, candidates are expected to:

- identify cultural roles
- demonstrate cultural practices
- explore measures to curb deviance or anti-social behaviour
- apply personal and social skills in finding solutions to social problems
- act responsibly in the society
- apply entrepreneurship skills
- demonstrate an understanding of the relationships within society and their functions
- develop an understanding of social, economic, political and cultural diversity
- use ICT tools
- apply research skills in solving social problems

Sociology will be assessed through continuous and summative assessments.

8.2: Continuous Assessment (40%)

Continuous assessment shall involve projects, tests and assignments.

A learner is expected to produce a project portfolio at each of the following levels:

- Form 1
- Form 2
- Form 3
- Form 4

NOTE: A profile system has to be developed for every learner to capture those attributes that cannot be measured such as the soft skills. A folio comprises test results throughout the secondary school on an annual basis and marks collated from the four prescribed projects. Observation schedules, checklists, tests and project tasks are to be set at district level and standardised nationally.

8.3 Summative Assessment (60%)

Description of the Summative assessment structure

The Summative assessment comprises two components as follows:

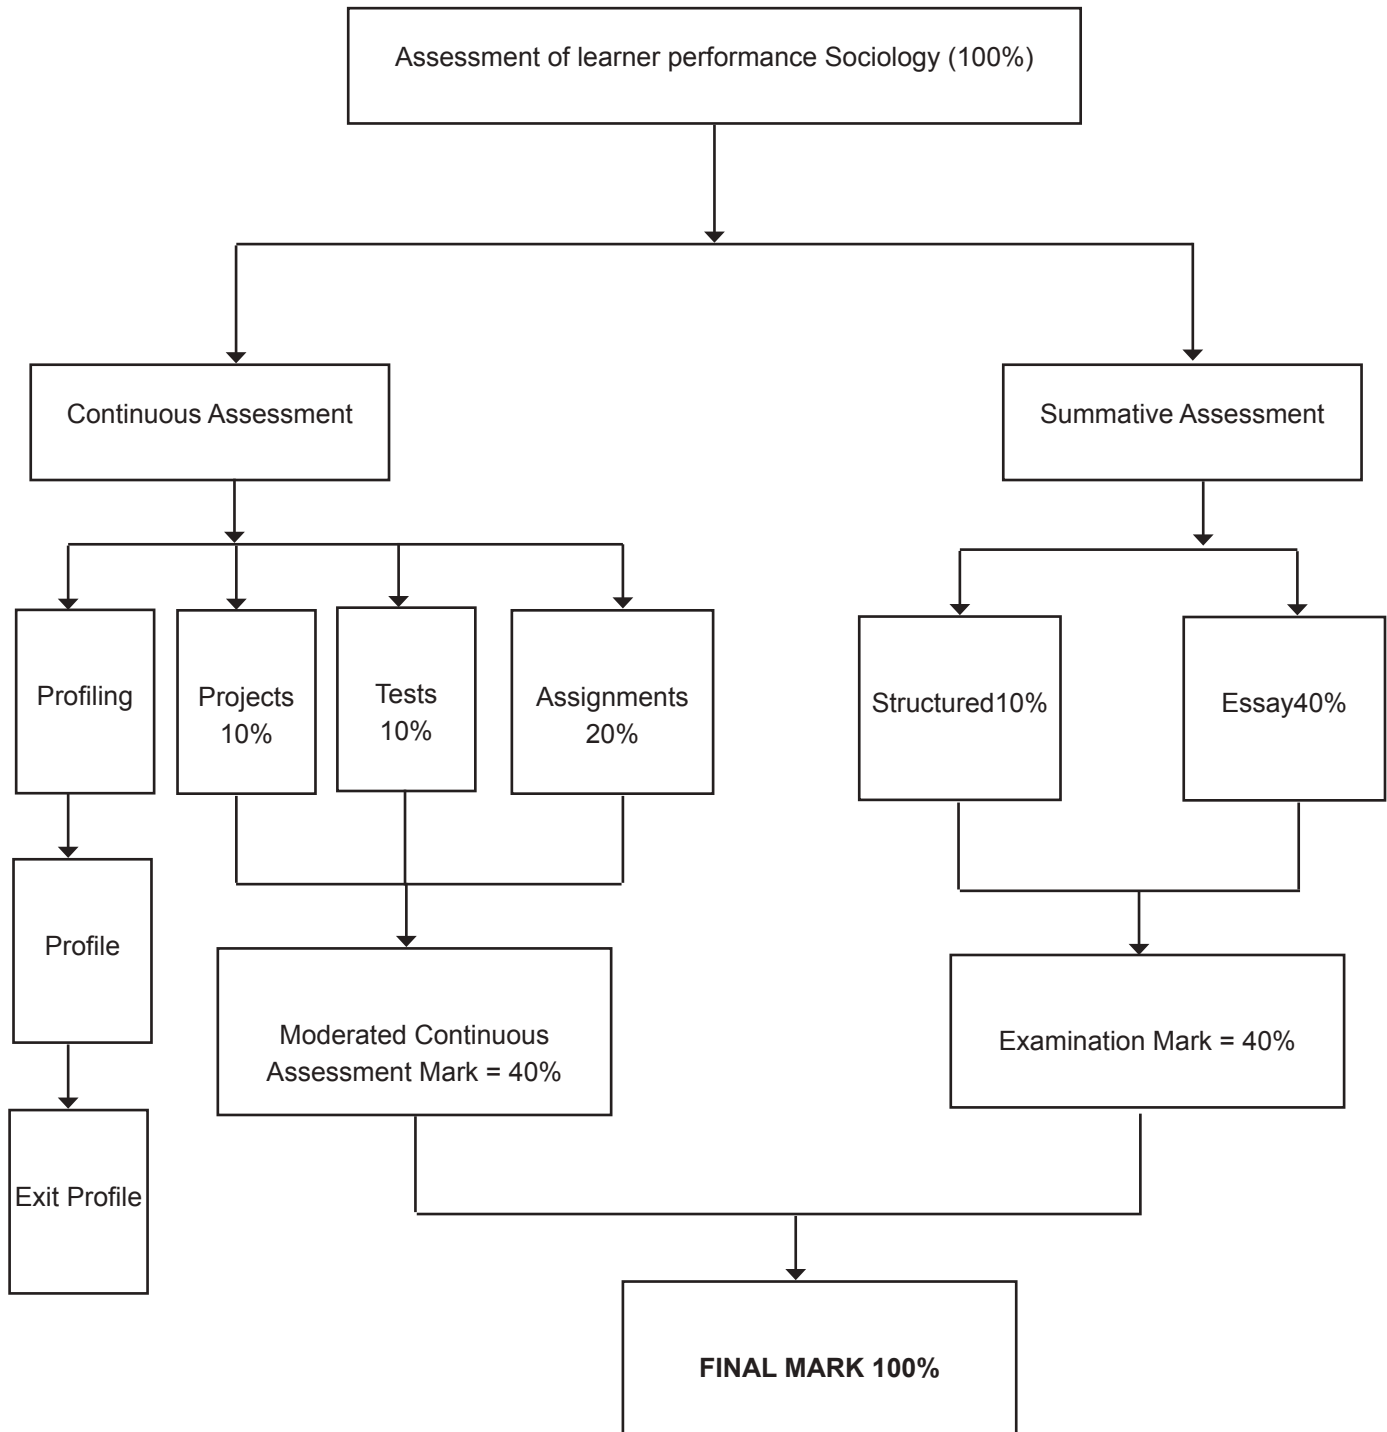

Paper 1 (1hr 45 minutes - 100 marks) 40%

There are 10 structured questions and candidates are required to answer all.

Paper 2 (2hrs – 100 marks) 60%

Paper 2 consists of essay questions. Candidates answer 4 questions out of 6. Each question carries 25 marks.
